collection 2010

Audi
quattro GmbH

The Audi collection – more Audi.

Audi cars embody our commitment to "Vorsprung durch Technik." Owning an Audi means getting all the benefits of a philosophy that demands giving everything to attain the very best. And it's only cars made in that spirit that bear the Audi name and logo. The Audi collection is a selection of products in a variety of categories that are equally distinguished by their forward thinking in terms of quality, technology, workmanship and design. And that's why they bear the Audi brand name. More Audi: the Audi collection. Enjoy.

Leather collection black – sophisticated and stylish.

This collection's starkly minimalist, pure design makes an instant impression. It puts the quality of the sophisticated cowskin Nappa leather and the hand sewn, grey contrasting seams at the centre of attention. The smooth, full-grain leather is refined by a natural, chromium-free tanning process ensuring a long-lasting luxurious feel. A high proportion of silk gives the inner lining featuring woven Audi rings a lush look that is also extremely tear resistant. All the articles here were lovingly crafted in Germany using traditional methods and are distinguished by their uncompromising workmanship.

Leather collection brown – timelessly modern.

The sporty style of this collection made of the finest cowskin Nappa leather perfectly corresponds to the dynamic look of an Audi. The grey double seams are an extraordinarily striking design element – a stylish reminder of the unmistakable, characteristic contrasting seams in the interior of the car. The soft brown cowskin Nappa leather is naturally refined and traditionally crafted in Germany by hand. Audi's high quality standards are reflected in every detail of the leather collection – a fact confirmed by the Audi rings woven in the brown inner lining.

Accessories – essential optional extras.

Admittedly, you can do without them. But life is significantly more pleasant with a few constant companions. Accessories enliven our everyday lives. They are both an expression of individual style and create a sense of personal well-being. Audi accessories are distinguished by their outstanding designs and choice quality.

Accessories

Audi design watches

Besides progressive technology, a characteristic feature of the Audi brand is its design. The Audi design language is one of distinct shapes, tensioned surfaces and traceable lines. It uses innovative materials, surfaces and colours. All Audi design accessories are developed according to this design principle. From the hands of Audi designers we present a collection of premium quality mechanical wrist watches, which combine the most intricate watch-making skills with innovative designs to create an aesthetic synthesis. Experience this special partnership of form and function for yourself. Every day – with an Audi design watch.

Audi design Square Chronograph

The sporty, elegant design is charged with geometric energy, and a dynamic interpretation of the basic square. Surfaces are made from specially-toughened stainless steel in contrasting high gloss or matt. The convex glass cover is made from sapphire crystal and is non-reflecting. The Audi design Square Chronograph's tough-wearing combination of casing and glass makes it water and pressure-resistant up to 10 atm. Impressively, the mechanical Swiss-made Valjoux 7750 chronograph movement with automatic winding module even works accurately under extreme conditions from -40 to +80° C thanks to a special oil, while its premium damping enables it to absorb knocks effectively and ensures the rotor is particularly smooth-running. Uniquely, the strap can be finely adjusted directly on the wrist in three 0.8 mm stages on each side by means of a patented mechanism in the casing links. A vegetable-tanned cowskin leather strap and nickel-free casing base ensure great wearing comfort. Casing dimensions: 38.4 x 36.8 x 16.5 mm

Audi design Square

With its clear and minimalist, practical design, the Audi design Square combines unique design language with state of the art engineering. The exterior of the Audi design Square is made from scratchproof stainless steel and is the product of outstanding quality workmanship. The casing is satin-finished and polished to make for an interesting contrast and the convex sapphire crystal glass is non-reflecting on both sides. On the inside, the Swiss-made ETA 2824-2 automatic watch movement ensures precise engineering excellence, a smooth-running rotor and accuracy from -40 to $+80$ °C thanks to the use of a special oil. The Audi design Square is also pressure and water resistant to 10 atm. What better way to keep time? A vegetable-tanned cowskin leather strap and nickel-free casing base ensure great wearing comfort. Casing dimensions: 34.4 x 32.8 x 11.75 mm

110.04.002.00

Chronograph R8

The similarity of this chronograph to the speedometer in the R8 is at once a statement and an inspiration. The high-quality casing is formed from blackened stainless steel, whilst the dial is made from real carbon. The convex sapphire crystal glass is non-reflecting on both sides, as well as being vacuum resistant and water resistant to 10 atm. The smooth-running Swiss-made movement ETA Valjoux 7750 absorbs any knocks superbly and guarantees the highest possible accuracy – even at extreme temperatures, thanks to a special type of oil. Featuring a black cowskin leather strap. Casing dimensions: height 16.5 mm, diameter 40.4 mm

310.07.001.00

Chronograph RS 6

The exterior of this sports version of a chronograph is sure to stand the test of time. On the inside it is measured precisely to the exact second – thanks to the Swiss ETA Valjoux 7750 chronograph movement with automatic winding. The chronograph comes with a black anodised casing and a red push-piece to measure speed. Face in RS 6 design with display of minutes, stop times and date. Strap is made from black, punched cowskin leather like the interior of the RS 6. Vacuum proof and water resistant to 10 atm. Casing dimensions: height 16.5 mm, diameter 40.4 mm

Technology and innovation

Advanced technology and a talent for innovation are the Audi brand's hallmarks. This watch collection is characterised by an entirely new functional concept, registered by Audi as a patent: a click mechanism allows the watch strap to be quickly and conveniently changed. With this concept you're sure to have the right look for every occasion. The quality guarantee "Swiss made" stands for precise workmanship and choice materials.

Chronograph

Every detail of these brushed stainless steel chronographs is distinguished by a striking, sporting design. The focus is on the strap-swapping function, which in turn inspired the shape of the casing. Particularly precise is the Swiss Ronda 5030D quartz movement with chronograph function for measuring seconds, minutes and stop times, date function and tachymeter scale for measuring speed. Mineral glass, screwed crown, water resistant to 5 atm. Three different watch straps can be quickly and easily changed using the click mechanism.

Reliable rain gear

Improving everyday items is a challenge that Audi designers particularly enjoy. This collection of umbrellas is an outstanding example. A sophisticated automatic mechanism tensions the Teflon-coated polyester Pongee umbrella along the premium-quality aluminium stem while reflecting safety strips with red contrasting strips enable maximum visibility for road traffic. Shatterproof fibre-glass spokes ensure Audi umbrellas offer high wind resistance and enjoy a long service life. Now that's Vorsprung durch Technik – even in the rain.

Sports & travel – discover the world of Audi.

Of all the activities that brighten up our leisure time, sport and travel are right up there at the fore. For many people, being sporty is a lifestyle choice which expresses itself in lots of everyday items. Travel and holidays are the best time of the year for many people. Audi has come up with state-of-the-art products for both these areas that combine practicality, quality and design in outstanding ways.

Sports & travel

Golf travel cover

The travel cover guards against damage during transit. The two-part or four-part protection pads in the club compartment provide optimum support for a cart bag or two smaller stand bags. Loading and unloading is made easy with an all-round waterproof zip fastening system, while a lightweight base plate ensures the travel cover stays stable. Inside you'll find two zipped compartments for shoes and accessories, a detachable pad for protecting each individual golf club and two adjustable fastening straps. Transporting the travel cover is made exceptionally easy thanks to a padded handle and inline skate wheels. A double zip fastener and a covered address label mean this travel cover is a safe bet through and through. And since the travel cover can also be collapsed and folded up, it doesn't take up much storage space. Material: Teflon-coated 1680 D ballistic nylon and compression-moulded EVA

Golf cart bag

Organisation is everything. And that's exactly the principle behind the Audi cart bag, and what makes it stand out. Secure transport for your golf clubs is provided by the 9" top with its sevenfold divider separated into distinct sections. In addition it features side pockets with waterproof zips, a detachable front pocket with a velour-lined bag for valuables including compartments for your mobile phone and wallet, a roomy section for clothing and a separate bag for anything that needs keeping out of the rain. The easily-attached rain cover folds up to save space. It also has two handles for easy loading and unloading, an insulated compartment for two 0.75 litre water bottles, a detachable insulated food pouch, a holder for golf balls and tees, an easy-access section for score cards and tees, an umbrella holder, a ball bag for 18 balls, a pocket for gloves, a utensil compartment and external mesh pockets for smaller odds and ends. From the well thought-through construction to the exclusive Audi design, it makes an altogether stylish impression – whether on the trolley or carried by its padded, adjustable and detachable strap. Thanks to EVA and polyester technology, this cart bag is exceedingly lightweight. Although very stable, it remains flexible and is easily stowed away in the car.

Clothing & textiles – for brand appeal.

Products bearing the Audi brand logo will always stand out against any background. What we call “Vorsprung durch Technik” in relation to cars has been interpreted in entirely different ways in our other product areas – an aesthetic best defined by a focus on functionality and simple, understated design. Audi textiles are timelessly modern, making them an expression of individual attitude – characterised by the four rings logo.

Classics – simply timeless.

What today is long since part of the past was once the future. Throughout the history of the automobile, Auto Union cars that bore the four rings emblem have constantly achieved milestones in innovation and technology. Each new generation of the DKW, Horch, Wanderer, NSU and Audi brands represented a step into the future, as continues to be the case today. These classic accessories are an expression of this great automotive past and of the values to which Audi is committed in the future.

Classics

Classic leather accessories

Tradition meets modern. Timeless elegance, high-quality workmanship and striking contours – those are the qualities that distinguish the cars from Horch, DKW, Wanderer and Audi to this day. The classic leather collection recalls the unique brilliance of these legendary brands. All the accessories are made of soft calf's leather, refined by a natural tanning process. Details like the distinctive dark brown colour highlights on the light brown leather are hard to resist. The four historical logos are woven into the lining of every wallet.
